

A4 FLYERS

HELP FOR THE CORRECT CREATION OF PDFs

 **Document format: 214 mm x 301 mm**
2 mm is trimmed from each side to create the final format.

 **Final format: 210 mm x 297 mm**
Your product is trimmed to this format.

 Elements that can't be trimmed (images, logos, texts) should be placed 2–3 mm away from the final format.

 We recommend making fonts larger than 8 pt and lines thicker than 0.5 pt to ensure optimal legibility.

 Your data should ideally use colour mode CMYK with an image resolution of 300 dpi. Only PDFs can be uploaded to the flyer service.

 Trim marks are not required in the document. The bleed margin is 2 mm.
